FANTASY BEER LEAGUE

Quick Start Guide

Choose beers for different categories, blindly sample, rate, and comment on them. Discuss your thoughts and review with friends.

1 Pick Tasting Categories

Categories are important, so create them first. You can get creative with them.

Examples: IPAs, Winter Spices, <5% ABV, New York Beers, Made with Chocolate

2 Choose Breweries

Select which breweries to sample beers from.

3 Schedule Tastings

Schedule your first tasting for one of the categories you chose.

4 Tasting

Sample the first beer (a small amount is distributed to each person).
Rate its qualities (taste, aroma, color, and mouthfeel), give comments, and tasting notes.
Discuss the beer with the group.
